PREVIEWS FROM THE EDITOR

HAPPY NEW YEAR!

Another year has ended, and a new one has begun! Welcome to our 31st year of publication of ***PREVIEWS*** — already in progress! Yeah, I know… that's a long, long time. When I began this journey back in 1988 I was 25 years old! 30 years later, my long strange trip is far from over, and ***PREVIEWS*** barely resembles the black-and-white pamphlet it used to be when it rose Phoenix-like from the ashes of *Bud Plant's Quicklist*. Along the way, I've made many acquaintances in the industry, and some really great friends too. I feel like the luckiest guy on Earth sometimes when I get to come here every day to work with this great crew in a creative and fun environment, surrounded by the coolest stuff on Earth!

This month our issue's theme is *TRY SOMETHING NEW IN THE NEW YEAR*. On page 242 of this issue (and throughout the issue as well) you'll find our suggestions for new and continuing series we think you'll really like. Each month, ***PREVIEWS*** features many new series' first issues, and each one must compete with the rest of the various comics, graphic novels, merchandise and more within our pages. We're not trying to get you to make some kind of New Year's resolution… that wouldn't be cool. (Besides, you know what you have to resolve to do this New Year's, don't you?!) Anyway, if we steer you in the direction of just one new title that you'll continue to follow throughout 2019 and beyond, then we can say "Mission Accomplished" — until next year!

And finally, if it's January, then that means it's time to once again reveal our new crop of titles for FREE COMIC BOOK DAY 2019, starting on page 31 of this issue! This is our 18th year for FCBD, and we've got another stellar line-up of titles with truly something for readers of all ages! Plus, we're also unveiling our FCBD T-shirt for 2019, this year's shirt designed by *Star Wars Adventures* artist Derek Charm!

As always, you have my sincere thanks for joining us each month, and for sticking with us for another great year of ***PREVIEWS*** issues… each fat-packed with the coolest stuff on Earth!

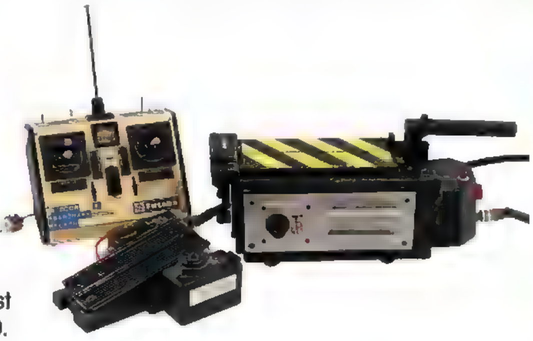
Heritage Comics & Art Auction Draws Over $10 Million

Heritage's November 2018 Comics & Comic Art Auction pulled in an astounding $10,776,936. The Belgium-based Boon Foundation for Narrative Graphic Arts won the Bernie Krigstein complete 8-page "Master Race" original art for $600,000.

Several comics and original art achieved six-figure prices, including *Incredible Hulk* #1 CGC 9.2 for $336,000. The *Amazing Spider-Man* #18 page 22 original art by Steve Ditko hammered for $288,000 and #60 original cover art by John Romita Sr. closed at $288,000. Sales included Jack Kirby and Syd Shores *Captain America* #109 original cover art for $264,000, *Detective Comics* #27 CGC 9.2 for $180,000, *Action Comics* #13 CGC 9.0 for $156,000, *Amazing Fantasy* #15 CGC 7.5 for $144,000, and *Superman* #1 CGC 1.8 for $132,000.

Hake's November Auction Surpasses $1.5 Million



Hake's Auctions' November sale cleared $1,556,958, bringing the total of their 2018 premier auctions to over $6 million. The November auction's top seller was a *Ghostbusters 1-2* screen-used ghost trap film prop, which sold for $71,390. A *Mickey Mouse Books – Make Your Own Midget Library* boxed set reached $24,447. Historical material was led by a 1935 Bismarck North Dakota baseball team photo with Satchel Paige for $23,364.

Star Wars pulled in impressive results, including a *Droids* Vlix action figure for $45,430, Canadian Death Star cardboard playset for $31,801, a radio controlled Jawa Sandcrawler for $16,874, and Bespin Set three-pack of figures for $16,874.

The Mickey Ears Still Have It

Easily the most iconic souvenir from any Disney theme park is the Mickey Mouse ears cap. Did you know the history behind them?

The original ear cap was created for the 1955 *Mickey Mouse Club* show, developed by the "Big Mooseketeer," Roy Williams. Williams took inspiration from the 1929 Mickey cartoon, The *Karnival Kid*, in which Mickey is seen tipping his ears to Minnie like a hat. The original caps were made from felt, with plastic ears, and were a part of the classic Mouseketeer uniform seen on the show. With Mickey and Minnie having just celebrated their 90th birthday, it's more obvious than ever that the classic ear cap is as iconic as ever.

Please tell us a bit about yourself!

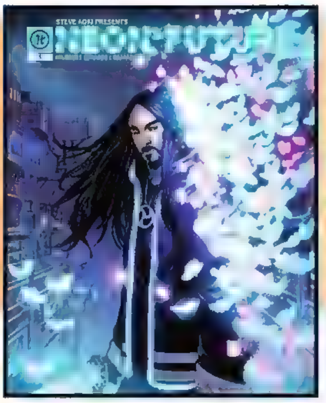
My career started way back in 1996 when I founded my indie record label Dim Mak Records out of my college apartment. I began DJing to promote music from the bands I was releasing and before I knew it, DJing and producing became my full-time job! By 2012, I released my debut solo album *Wonderland*, which led to my first Grammy nomination. Four years later, Netflix released my documentary film *I'll Sleep When I'm Dead* (which got me my second Grammy nomination). Today, however, my focus is on building the *Neon Future* series, an ongoing thread of connected semi-concept albums that delve into my deep interest in futurism through technology. What started in 2014 with the RIAA certified gold album, *Neon Future I*, continues through *Neon Future IV*, due out this spring. Musically, this project has allowed me to work with artists in every genre from Daddy Yankee to BTS, Snoop Dogg, Linkin Park and One Direction's Louis Tomlinson but more interestingly, I've been able to make music with icons in science, tech and pop culture like Ray Kurzweil, Bill Nye and J.J. Abrams. I've always intended for the *Neon Future* concept to extend beyond just the music. Thanks to Jim Krueger and Impact Theory, I was able to introduce an entirely new side to *Neon Future* with the comic book!

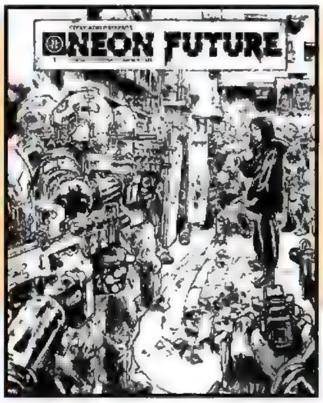
What are your favorite projects you've contributed to over the past decade?

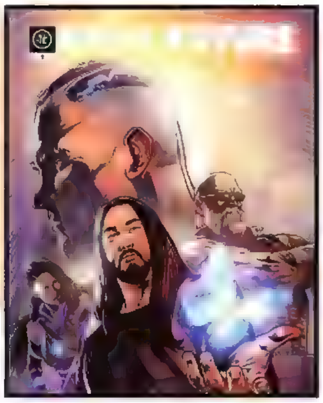
Over the past decade, I've had the fortune to work on many projects of which I'm extraordinarily proud. Some of my favorites though have been the Netflix Original documentary *I'll Sleep When I'm Dead*, which was my way of sharing with the world the story of my family upbringing, personal life and come up in music. It was a way to truly connect with my audience on a human level. Another one of my favorites is the Dim Mak Collection, my clothing line that has transformed through the years into a men's street wear brand focused on elevated casual basics with graphics inspired by my life on the road. I also recently became the first-ever electronic musician and third-ever DJ to be inducted into the Smithsonian. To be in the company of Bob Casey and Grandmaster Flash is an incredible honor. Another amazing project that's a favorite of mine was when I partnered with LA Mayor Eric Garcetti and shut down three city blocks in Downtown LA to put on a concert for over 7,000 fans who had to sign up for community service to attend. Lastly, I'll never forget getting the chance to interview Stan Lee and Ray Kurzweil. Having the chance to talk with these legends in the comic book and science/technology fields tied together the entire *Neon Future* universe for me.

What are you currently working on?

I'm currently working on the fourth chapter in the *Neon Future* album series, which will be released in Spring 2019. Outside of music, I spend a lot of time working with The Aoki Foundation, whose primary goal is to support organizations in the brain science and research areas. My hope is to see a world in the not-so-distant-future where science and technology play an integral role in the health and wellbeing of ourselves and our loved ones. This vision for the future ties back into the *Neon Future* comic book series as a whole. For the comic book, I'm working with Tom Bilyeu, founder of Impact Theory, and Eisner Award-winner Jim Krueger, on developing different character story arcs and fleshing out the broader world of *Neon Future*. We're also working on developing the comic book for other mediums such as film, TV and animation to tell the *Neon Future* story to an even wider audience. I'll be at upcoming Comic Conventions and store signings as well in support of our project!







What fun titles are you reading?

Brian K. Vaughan's masterful sci-fi series ***SAGA*** (*Vol. 1 DLX* / SEP190591) is a must-read. It has *Star Wars*-like elements... a sweeping love story that's set in an epic extraterrestrial galaxy.

Vault Comics' ***Wasted Space*** (JUL182293) is a wonderful sci-fi series with compelling characters — prophet Billy Bane paired with Dust the Fuq Bot is pure genius from Michael Moreci. I'm excited that the series was extended to 20 issues!

I'm a huge fan of Mark Millar's ***The Magic Order*** (*Vol. 1* / MAY188816), the concept of powerful magicians living next door to us as everyday neighbors got me hooked. It's an edgy, dark comic book series that pays off!

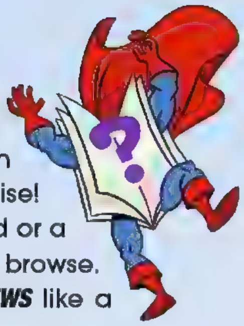
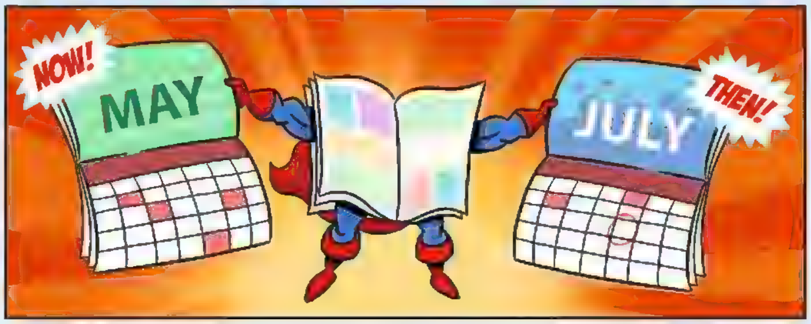
USER'S GUIDE



There's *a lot* of awesome comics and products to look through in ***PREVIEWS***. "A lot" might be a bit of an understatement, as each month's catalog is filled with hundreds and *hundreds* of pages of upcoming comics and related merchandise! It can be easy to accidentally overlook a new series you've been dying to read or a figure you've been pining to add to your shelf when there's so many things to browse. That's why we've put together this guide to help you learn how to use ***PREVIEWS*** like a pro to order the awesome titles and products you want!

WHAT EXACTLY IS *PREVIEWS*?

PREVIEWS is part catalog, part magazine (we call it a *Mag-a-log*!) of monthly listings of all of the upcoming comic titles and related products from your favorite publishers and manufacturers in one convenient place. And don't worry—***PREVIEWS*** is organized by publisher and product type (and color-coded to boot!), to make it easy to find and flip to the section or items you're looking for. Each item listing has the information you need, such as format, size, page count, price, release date, stock or item code, and descriptive text, and nearly every listing is accompanied by artwork or images.



NOW!
MAY
JULY
THEN!

The most important aspect of ***PREVIEWS*** to remember is that **items solicited in the catalog are anticipated to ship 2-3 months later** (or more). For example, if you found a comic you wanted in the May issue of ***PREVIEWS***, you can expect to see it turn up in your local comic shop in July. The catalog can be a great resource for figuring out where your favorite comic series is going, or for discovering new ones that you'll want to add to your library—not to mention all the other awesome products!

HOW DO I ORDER FROM *PREVIEWS*?

When you've picked out all of the items you want, you can fill out the **Short Order Form** included in your copy of ***PREVIEWS*** and submit it to your local comic shop. You can also ask your friendly neighborhood retailer about obtaining a **Customer Order Form**, a booklet that contains a complete listing of all the items made available for that month. These forms make pre-ordering your comics and products a breeze and can help your local comic shop decide what to stock in the store for other customers, too! Be sure to also ask your retailer about their **pullbox or subscription service**. Once you've submitted your order, you can sit back and relax, or try to contain your excitement until your comics and merchandise arrive!

With the launch of this month's *TRANSFORMERS* #1 from IDW Publishing, the long-running line of comics enters a dramatic new era—for the first time in Hasbro and IDW's 13-year history of making *TRANSFORMERS* comics, this new series delivers a new starting point. To celebrate this fresh start, long-time *TRANSFORMERS* writer (and IDW Editor-In-Chief) JOHN BARBER spoke to incoming writer BRIAN RUCKLEY about the new series!

JOHN BARBER: *Welcome to the world of the Transformers, Brian. I'm excited to have you here. I hope the fans will be, too–I've really come to love Transformers fandom in my time on the series.*

BRIAN RUCKLEY: Thanks, John. I'm excited to be here. Not wanting to be too corny, but it feels like a privilege to be getting involved in something like the *Transformers*, that has such a rich history, and a vast universe of stories, and such a big, broad, enthusiastic fan following. I hope everyone finds at least something to like in what I build in the sandbox!

JB: *For people unfamiliar with you–where do you come from? What's your story?*

BR: I'm a Scottish writer with a few novels and short stories under my belt—fantasy mostly, with some sf and horror type stuff here and there. From a pretty early age I was a gigantic comics fan. If you'd told the me of back then he'd wind up actually writing comics, he'd probably have passed out. I've done a couple of things for IDW before—Rogue Trooper and Highlander—and loved the experience, but *Transformers* is obviously the biggest, scariest, most exciting thing I've had the chance to do in comics.

JB: *What got you into Transformers? Were you a Transformers fan when you were young?*

BR: Honestly, I didn't really catch the Transformers bug until I was all grown up: liking some of the toys I saw here and there, watching some cartoons that turned out to be way, way better than they had any particular reason to be. Really liking some aspects of the movies (not all aspects, to be 100% honest, but enough!). And being totally blown away by what folks like you and James Roberts did in IDW's comics. I'm a comics fan deep in my bones, so maybe it's not surprising that in the end comics were the most important route the Transformers took to get inside my head.

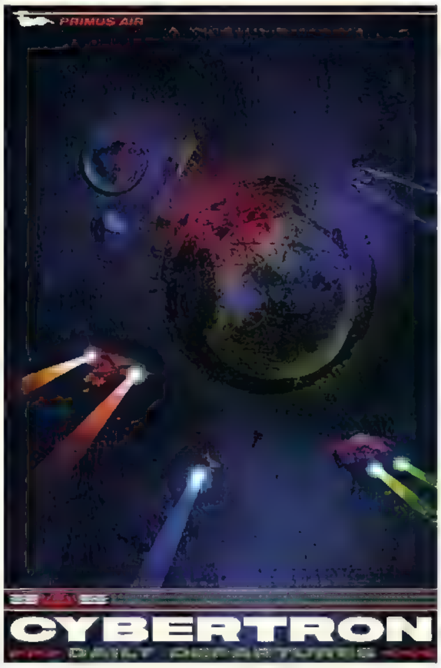
JB: *What's your favorite Transformers story, be it comics or anything else?*

BR: So this is going to sound like I'm just bigging up IDW again, but I promise it's true: *More Than Meets The Eye* is the *Transformers* stuff I've enjoyed the most, in any medium. I've got a soft spot for the *Transformers Prime* TV show, and liked the *Dark of the Moon* movie a lot more than I expected to, but MTMTE really is one of my favorite comics, of any sort, from the last few years.

JB: *What's Cybertron like before the war, when this series takes place?*

BR: It's a pretty awesome place, in the literal sense of awesome. A planet that's a wonder in itself, but is also full of wonders. I love the idea of Cybertron as a vast world in a vast, living universe, full of technological marvels. It's a playground for imaginative possibilities. And peaceful, at least initially, superficially. Where we pick up the story it's been a long time since Cybertron's seen any violence. Obviously, it's not a spoiler to say that can't last forever...

JB: *Optimus and Megatron have an existing... friendship? Is that the right word?*



BR: I'm not sure friendship quite covers it. It's part of it, for sure—they have a long shared history, a lot of shared experience. But there are enough differences between them to inject more than a bit of friction into things. They're both sincere, more or less well-intentioned, and they each have a certain respect for the other: it's just a shame that in the long run even a place as vast as Cybertron isn't quite big enough for the both of them, or for their different ideas about how the future should look.

JB: *There's an amazing sense of scale in this new series. You've got this grand epic story of the struggle for Cybertron's soul with Optimus Prime and Megatron, but you're seeing it from the perspective of a new Cybertronian, Rubble.*

BR: Yeah, I like Rubble. His is not the only point of view, all the time, but he's absolutely a key character. I wanted to be exploring the world, and experiencing the increasingly dramatic events, through fresh eyes. Literally fresh, because he's only recently forged when the series opens, so he has an appealing sense of discovery and wonder.

JB: *Plus you have the physical scale of this relatively little guy to Cybertronians so big and old they've merged with the planet. How important is that sense of scale?*

BR: It's a big part of where I'm coming from with all this. I really am trying for a kind of epic science fiction, not just in the eventual scale of the story, but in the scale of some of the technology, some of the ideas, some of the characters. Rubble's seeing things for the first time that are pretty awe-inspiring, whether it's some of the other Cybertronians—the possibilities of what a Cybertronian can be, or what's going on with Cybertron's Inner Moon, or some of the aliens in the background, or the sheer scale and uniqueness of the planet itself. It's big stuff, all of it.

JB: *What are some of our favorite Transformers characters we'll be seeing?*

BR: Eventually—hopefully—too many to mention! The story builds up step by step, though, and so will the world and the cast. You can't really throw everything and everyone into the mix straight away. Optimus, Megatron, Bumblebee— they'll be there, of course. We'll get some Prowl, Chromia, Wheeljack. And being the writer, you get to indulge your own favorites a bit, which means it probably won't be too long before readers get to see my take on folks like Cyclonus, Starscream, Windblade, Quake. Plus, in due course, there might be one or two new Cybertronians to go along with Rubble.

JB: *The art for this initial story is by Angel Hernandez and Ron Joseph, both of whom are pretty amazing. When you come to the IDW offices, Angel's art is actually hanging on the wall to show how a comic book page goes from pencils to final art. Angel's done some amazing Star Trek work–Ron's tangentially done some Transformers stuff with me, but this is his first real trip to Cybertron. Are you excited to set out in this new frontier with them?*

BR: Any expedition to explore Cybertron is doomed before it starts if the writer doesn't have some top quality artists along to do all the hard work. And they really are doing the hard work: Transformers comics are a fairly unique sort of artistic challenge, and I'm kind of in awe of anyone who's got what it takes—which Angel and Ron certainly do. They can do epic, they can do action, they can do the character moments. I know they'll deliver, and I'll be trying my best to give them some fun material to work with.

JB: *Any last words for people who might be new to Transformers comics themselves?*

BR: Dive on in! Part of my brief for all this was to make something that might work both for new readers and for long-time fans ready to see something new. It's a fresh take on the universe, starting from square one, so for someone who's never read a Transformers comic in their life this is their chance to discover their own version of the epic story, the epic saga, right from the beginning. It's a big, amazing universe out there and everyone's welcome!

When NASA astronaut Steve Austin was badly injured in an accident, science could rebuild him better and faster for the low, low 1970s price tag of six million dollars. The 1970s were a time of oil shocks and stagflation and, like a car driven off the lot, that six million dollars investment in Austin depreciates in value as he left the lab to work as a government secret agent. Cars, however, experience ordinary wear and tear that brings their value down. Steve Austin, on the other hand, experiences extraordinary wear and tear as he battles foes of the United States. From writer Christopher Hastings and artist David Hahn comes a unique take on the classic 1970s action-adventure television series *The Six Million Dollar Man* for Dynamite Entertainment this spring!

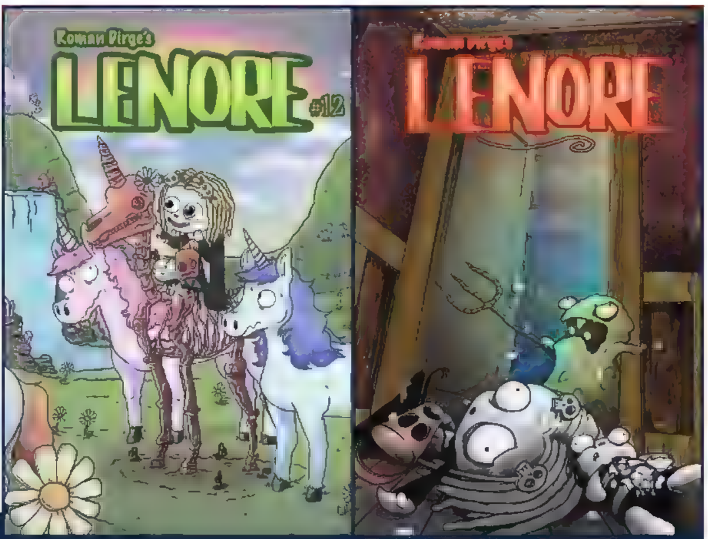
IT'S ALIVE! LENORE RETURNS TO COMICS AFTER FOUR YEARS!

Lenore: The Cute Little Dead Girl returns to Previews this month, in a special #12 from Titan Comics! Fans rejoice, as the cadaverously cute, putridly popular gothic icon makes her first comic book appearance in four years – with a variant cover from Sarah Graley (*Rick & Morty*, *Kim Reaper*, *Minecraft*)!

David Manley-Leach, editor on Titan's *Lenore* books for over a decade, tells us how creator and artist **Roman Dirge** brought his iconic Cute Little Dead Girl back to life once more!



DAVID MANLEY-LEACH

How did you first meet Roman?

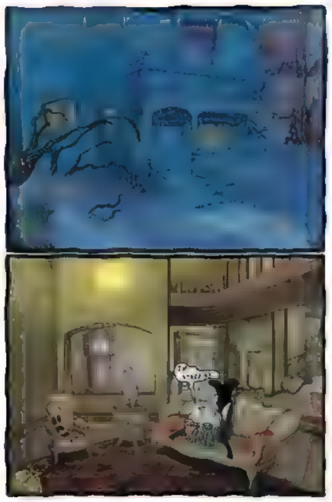
David I've been working with Roman for over 10 years. Indeed, almost as soon as I started working for Titan Books I was made editor of Roman's outre. I was in the unique position of editing comics for Titan Books, while nowadays I edit books for Titan Comics...

Back then Roman was digitally remastering the old black and white Lenore books and recolouring them, then he started working on producing new Lenore comics. We're currently working on issue #12, which is in this catalogue.

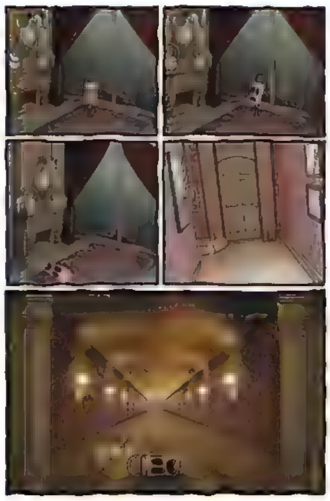
Over the past decade we've also worked together on putting out three other Roman books: *Cat with the Really Big Head*, *Something at the Window is Scratching* and *The Bloody Best of Lenore*. I first met him on the internet, and we now converse over our computer screens and on the telephone where we have (very) late-night phone calls.

Any stories about Roman he wouldn't mind us hearing?

David Roman loves to ignore my emails and lets me stew, especially in the build up to deadlines. Then when the deadline is upon us, he swoops in like an avenging angel and delivers his artwork. It delights him greatly. Me? Not as much. Roman loves to wind me up, and he loves to get my increasingly desperate emails. He also delights in only answering one question per email, so I have to be careful when asking him questions. He once used my emails to write a foreword for a Lenore collection.



> "Lenore is staggeringly cute, and Roman has a genuinely demented sense of humour!"



What's your top *Lenore* story?

David I know this is a cop-out answer, but I don't have one particular favourite. I love reading Lenore. Roman has a fantastic sense of timing, and he can push a joke to degrees that I find delightful! I've never read a single Lenore story that didn't make me laugh out loud and surprise me in equal measure, so I won't choose and you can't make me.

What's the secret of *Lenore*'s immortality? The series, I mean...

David Lenore is staggeringly cute, stupidly so. Plus Roman has a genuinely demented sense of humour, he can do the most terrible and appalling things and then make it all disappear with a stupid gag. It's a tough tightrope to walk, but Roman does it well.

Are there any future projects you'd like to work with Roman on?

David I really, really want Roman to finish off the greatest story ever written in the history of mankind. It's called *I Can Count to Ten*, and when I first read it I wept with laughter. It's going to be the next *Moby Dick* or that other book everyone goes on about all the time. Well, let me tell you that neither of those are half as funny as *I Can Count to Ten*.

The thing is Roman is a busy man. Busy, busy busy. He's too busy to answer emails, he's too busy to answer the phone and as a result he's too busy to finish it off, but by god, I'm going to get that damn book out of him before I die or my name isn't Ishmael.

Check out the Titan Comics section for more information!

CREATOR SPOTLIGHT

***LITTLE BIRD* references some very dark events and mindsets like the Inquisition and Manifest Destiny with its villainous Bishop character. Why choose these particular eras and this antagonist?**

DARCY VAN POELGEEST: There's a legacy of abuse there; church and government working together to assimilate other cultures and people into a more Eurocentric society by converting them into Christians, while destroying families, cultural practices, and identity in the process. Survivors of cultural genocide became an inspiration for Little Bird's character, and from there, Bishop developed as the story's primary antagonist.

DARCY VAN POELGEEST

IAN BERTRAM: One of the things Darcy and I have spent many hours talking about is the trouble with dogma. It's always a mistake. This comic centers around the use of fear to justify oppression, and the violence that arises in response. This comic is not a political diatribe; it's an exploration of the problems with an us-vs-them narrative.

***LITTLE BIRD* has a unique look, like a cross between a period piece and a fever dream. How did you both develop the book's style?**

VAN POELGEEST: We spoke a lot about how **LITTLE BIRD** and the other rebels are living completely off the grid and how they have essentially all been driven back in time by having to hide out in the natural world. But it's this connection to the land and their independence that places them at odds with Bishop and his vision for the Holy Empire. Bishop, on the other hand, embraces all of the tech this future offers him but surrounds himself with an old-world aesthetic—it's a reflection of his own hypocrisy.

Ian takes all these ideas and shapes them into this incredibly unique world. I don't really know how he does it, but I'm convinced there's magic involved.

BERTRAM: Fever dream is a perfect description. We put zero regulations on ourselves if it made the story better. If I wanted to draw something extra crazy, Darcy always had my back. Specifically, the New Vatican city is built out of these giant stone blocks. Rigid but stable, and unable to adapt or change. The village and the rebels are more chaotic. They are constantly adapting, and incorporating new ideas, and their homes and style reflect that.

IAN BERTRAM

Also tentacles! There will be plenty of tentacles.

This comic spans decades, Darcy, and certainly isn't linear. How did you approach plotting this?

VAN POELGEEST: I don't write linearly, so perhaps that has something to do with it. I spend a lot of time just thinking about how the characters got to this point in the story before working on the script. Ian and I would throw ideas back and forth as well, and what we end up with is far bigger than what makes it into the book. This sort of deep exploration of character was particularly important for **LITTLE BIRD** because we're playing with time and looking at how the choices we make have a lasting impact on those around us. It's the way all these events become entangled with each other that I find so fascinating.

CREATOR SPOTLIGHT

Kyle, this is your third assassination-centric project. What keeps you coming back to hired guns?

KYLE STARKS: I think the reason that I'm so drawn to the archetype is that it automatically dictates a high degree of skill and threat, and there are so many reasons to step away from that life. This, however, is also one of the clearest influences from having watched far too many '80s action movies in my formative years. Everyone is either the former best killer or ex-special forces, and I think I've always leaned toward the darker side when it comes to compelling characters.

Erica, you've been working on superhero and all-ages comics for the greater part of the last decade. What appealed to you about a group of absurdist murderers?

ERICA HENDERSON: I've worked on a lot of all-ages stuff for sure, and I love all-ages stuff, too—but some of my favorite pieces of media are action and horror. I cannot tell you how many times I've seen **Predator**, **Hot Fuzz**, or **RoboCop**, which are all bloody action movies with humor mixed in. Also, Kyle and I have been talking about working together for years, and part of my wanting to work with Kyle was knowing the sort of stories he comes up with.

The first issue presents 19 hit-people from all over the world. How did you approach writing and designing this ensemble?

STARKS: I really wanted to do an ensemble cast book, one where the body count would be high and the action would be huge. I came up with a bunch of funny names and, in my opinion, cool backgrounds, and Erica made them rad as heck. I think the trope of "a lot of different bad guys getting together" is so intriguing and full of potential.

HENDERSON: I was mostly concerned with making sure people felt different from one another. I'm really a big fan of distinct looking character actors like Ron Perlman, Jennifer Coolidge, C.C.H. Pounder, and Lance Henriksen, so this was an opportunity to make a book full of those kinds of people. Some of them were just me drawing a character and saying to Kyle, "I don't know who she is but she's in the book," and some were Kyle really wanting certain character archetypes in there. A few were just Kyle writing down an insane name and me filling in the blanks.

Who's your favorite assassin from the first issue?

STARKS: I sincerely love all these characters. Wistful Stan the geriatric, retirement home hitman? Rumble Deathpatch? Desert Regal? Meat Stick? They're all cool, man! F@%& Tarkington and Dave, I think, are All-Time Great characters.

HENDERSON: I'm just going to say Dave, because I based him on my fiancé (maybe husband when this comes out?).

***What can readers look forward to in* ASSASSIN NATION?**

STARKS: I like to think I promise the same things in all my books: action, comedy, mayhem, an entertaining good time. It's going to be a fun ride. With lots of murder. And a guy named F@%&.

HENDERSON: So much straight-up murder.

"FRACTURE I," Part One
LAZARUS returns in an all-new prestige format! New series, new story arc, new size, and a new quarterly schedule!

Introducing a new ongoing **LAZARUS** series—at 64 pages, perfect bound, **LAZARUS: RISEN** continues the story of Forever and the Carlyle Family... featuring an oversized, 44-page story by Eisner winners **GREG RUCKA** and **MICHAEL LARK**, an all-new short story exploring the larger world of **LAZARUS** by Eisner-nominated writer **LILAH STURGES**, an all-new supplement to the **Modern Age: World of Lazarus Roleplaying Game** by **Green Ronin**, original design artifacts and art supplements, and more!

Two years have passed since the Carlyle Family was betrayed in battle, and the Conclave War encroaches on every side. As a new era dawns, Johanna Carlyle goes on the attack to ensure the survival of her Family, relying on the loyalty and support of the Carlyle Lazarus—her sister, Forever—remaining at her side. And while their united front may be enough to turn the tide, the cracks are beginning to show...

CREATOR SPOTLIGHT

MICHAEL LARK

What inspired you to relaunch* LAZARUS *with a new number one and quarterly format?

GREG RUCKA: It's not a decision we made lightly, and for a number of reasons. But if there was a time to do it, that time was now—returning to a regular delivery schedule after such a long hiatus, and doing so in a new format at a very new stage in the story. The break between the end of "Cull" and the start of **LAZARUS: RISEN** is a significant one, and it marks a sea-change and acceleration in the narrative.

Add to that the fact that we're in this new format—64 pages and perfect bound—and it made the decision that much easier. And that goes for our desire to deliver something that's a little different for our fans, but keeps with the feel and intentions of the book—not just regarding the story of **LAZARUS** overall, but also our philosophy about what we want to provide our audience. It additionally lets us deliver even more back matter than ever before. We've got Lilah Sturges writing an original short story for this issue, new artifacts designed by both Eric Trautmann and C. Richard Howe, and—with the release of the **LAZARUS** world setting for Green Ronin's Modern Age role-playing game coming out—a section devoted to converting in-story elements for use in the RPG.

LAZARUS #28 *dove into Jonah Carlyle's backstory. What characters are you and Michael looking forward to exploring as the epic progresses?*

RUCKA: LAZARUS: RISEN #1 finally—finally—gives us a little more insight into Bethany, but what I'm really looking forward to... would be massively spoiler-y. What I can say is that **LAZARUS: RISEN** issues one through six are going to dig down to the bone, and we're going to be getting answers to a lot of the questions that have been floating around since the start, though not necessarily the questions that people think we're looking to answer. But I'm as excited about the series now as I've ever been, maybe even more so, because now we've got everything in motion.

Class warfare has been a continuous thread throughout* LAZARUS*. How are those themes evolving in the "Fracture" arc and beyond?

RUCKA: In a large part, that's what the "Fracture" sequence ("Fracture I", **LAZARUS: RISEN** issues one, two, three, and then "Fracture II", issues four, five, six) is about—we'll be on both sides of the Family/Waste divide, seeing how the actions of the one have devastating consequences on the other. But one of the evolving threads, I think, is a question of responsibility and obligation—the **LAZARUS** world is one where the social contract as we know it has disintegrated even more than it has in the real world. There's a genuine question of responsibility at work, and what we know for certain is that the Families feel almost none. They just don't care. That's how you can call the majority of your population Waste, right? So at the end of the day, if things are going to change... well, who will step up? Are the people capable of effecting a change for the better going to do so? Or will they continue to serve their own interests alone and no others?

A NEW ERA DAWNS! In the infinite universe, there exists a planet like no other: Cybertron! Home to the Transformers, and a thriving hub for inter-stellar commerce, it is a world brimming with organic and constructed diversity. Immense structures line its landscape. Mechanical giants roam across its surface. Starship-sized titans orbit its skies, keeping a constant protective watch above and below. Ancient Transformers merge into its very fabric. Small, mysterious creatures skulk in its shadows. It is a truly amazing realm, long untouched by war, and exuberantly reaching for the stars. This is the Cybertron that Optimus Prime and Megatron vie for in this bold new origin—a world of seemingly endless peace!

All that changes when Bumblebee and Windblade take a newly-forged Cybertronian on his first voyage through this world of wonders—they are confronted by the hard reality of the first murder to have occurred on Cybertron in living memory!

COMPLETE CHESTER GOULD'S DICK TRACY, VOL. 26

writer/ artist/ cover **Chester Gould**

Having returned to policing duty on Planet Earth, former Space Sheriff Tracy finds a world markedly changed from the one he left. Feeling handcuffed by expanded legal protections afforded suspects and stricter guidelines of evidence, Tracy all but begs bad guys to shoot first, and he may get his wish, thanks to nemeses such as explosion-crazed Jonny Scorn, the hand grenade-toting revolutionary called El Tigress, and the aptly-named Dope King. These early '70s adventures also see the dauntless detective facing off against one of the strip's best late-era grotesque villains: Pouch, who uses a repulsive hidden flap in his neck to hide anything from stolen diamonds to automatic pistols. Volume 26 reprints all dailies and Sundays from December 24, 1970 to September 27, 1972.

MAGIC: THE GATHERING — CHANDRA

writer **Vita Ayala**
artist **Harvey Tolibao**
cover **Ken Lashley**

The rich world of *Magic: The Gathering* comes to life, revealing new adventures, in this thrilling graphic novel featuring Planeswalker and pyromancer Chandra Nalaar.

Ever in search of adventure, Chandra strikes out on her own, determined to protect the Multiverse and help those who cannot help themselves. But as new threats arise, she finds herself haunted by the failings of her past… and confronted by a sinister foe hoping to prey on her weakness. Plagued by demons—both figuratively AND literally—it'll take more than fireballs for Chandra to win the day! How will she save those in peril… including herself?

Magic: The Gathering: Chandra ties directly into recent events on the cityscape plane of Ravnica—as seen in October 2018's *Guilds of Ravnica* and subsequent card sets—bringing the comics closer to the game's story than ever before.

SONS OF CHAOS

writer **Chris Jaymes**

artist/cover **Ale Aragon**

The Greek War for Independence was a conflict that quietly influenced the entire world. Participants ranged from the London Stock Exchange to celebrities such as Lord Byron, as well as average impassioned Americans willing to transport themselves across the Atlantic to fight alongside the Greeks. This conflict was the pinnacle of what we now know as the Romantic Period, and yet it's a war that few know ever existed outside of the Greek and Turkish cultures; a war that stimulated the fall of the Ottoman Empire and shaped what we now know as the Western World, and in a sense is being fought today under a different heading amongst the political leaders of the Eastern and Western worlds.

ROY G. KRENKEL: FATHER OF HEROIC FANTASY: A CENTENNIAL CELEBRATION

writer **Andrewsteven Damsits, Barry Klugerman**

artist/cover **Roy G. Krenkel**

Roy G. Krenkel illustrated numerous works by **Edgar Rice Burroughs, Robert E. Howard, Lin Carter,** and more. But many of Krenkel's works—what he calls his "Doodles," in a characteristically self-effacing manner—were rarely seen by even his biggest fans. And while many of Roy's doodles were simple drawings, many were finished illustrations done for the pure pleasure of creating art. Most of the images in this book are published here for the very first time (courtesy of and with the full cooperation of the Krenkel Estate), and nearly all have been painstakingly scanned from the original art (in a manner akin to IDW's Eisner Award-winning Artist's Edition series) with the goal being to showcase Krenkel's gorgeous original art in a way it has never been seen before. While the realms of science fiction, heroic fantasy, paleontology, and historical reconstruction were particular specialties of Roy's, his pen, brush, and palette knew no boundaries.

CHRISTOPHER HASTINGS (The Unbelievable Gwenpool! Secret Agent Deadpool! Adventure Time! I Am Groot!) and **DAVID HAHN** (Batman '66! Bombshells: United!) proudly present a story from a time when there wasn't internet, but there WERE cyborgs!

It's the 1970s. Things are going great. Steve Austen (used to be an astronaut, now has robo-parts & a laser eye) heads to Japan to help Secret Agent Niko Abe stop a madman with missiles. Steve figures, no sweat. But then…sweat. How's Steve going to complete his mission, when his fancy $6,000,000 body starts (DRASTICALLY) depreciating in value!?

WRITER CHRISTOPHER HASTINGS AND ARTIST DAVID HAHN TALK *THE SIX MILLION DOLLAR MAN #1*

Who's the Six Million Dollar Man? And why is he always smiling?

HASTINGS: Colonel Steve Austin is a former NASA astronaut who lost most of his favorite organs and body parts in a spacecraft crash. Thankfully the U.S. government was ready with about $6 million ($33 million today) worth of biomechatronic replacement parts that have made him better, stronger and faster than any all-organic human could hope to be.

With Steve's patrons wanting a little more for their money than just a test pilot, Steve and his cyborg body are put to work as a secret agent. And he's pretty darned cheery about it because the alternative would have been a transfer to Arlington National Cemetery.

When, and where, does your series take place?

HASTINGS: The series takes place in mid-1970s Japan. Steve is sent to investigate the possibility of a missile site on a small island owned by a vengeful consumer electronics baron. He's still pretty green to all the non-tech spy skills needed in these situations, so he's paired up with local agent, Niko Abe. Steve cheerfully evades guards at super speed and confidently catches bullets with his bionic arm, but his "casual amateur" style of subterfuge frustrates the "actually very good spy" Niko, right up until Steve's expensive super powers literally get hacked off his body, and the mission shifts from intelligence gathering to desperate escape attempt.

How does one draw the 1970s?

HAHN: The real secret, as with depicting most period stuff, is in the size of the shirt collars and the hair styles. To me, that is the key, so that even if the panel is a close up of a character, with no room for 1970s trappings like era cars, phone booths, etc, you can still tag the setting as being 1970s by the hair and shirt collar.

We'll see The Six Million Dollar Man depreciate in value throughout the series. What's your artistic approach to drawing a cheerful-yet-perpetually-malfunctioning cyborg astronaut guy?

HAHN: For this, the approach is all in our Steve Austin's can-do/super-optimistic attitude. No matter how beaten up and damaged he gets, he will always default to having a smile on his face, and be determined to see the job through. Even though he might be physically beaten, his expression will always be one of "this is just a minor setback and nothing to be worried about."

Based on the action game Obey Me on PC and consoles. Locked in a millennial conflict, the forces of Heaven and Hell wage war in the Material Realm using servants and mortals as proxies. Vanessa Held is a low-ranking lesser demon serving Ammon, the Archduke of Greed. She takes part in missions to further her boss' plans while collecting the souls of those who had sold their soul to him. Join Vanessa and her Hellhound companion Monty through their assignments, becoming more powerful while taking on demons, corrupted humans and more. Welcome to the world of "Obey Me"

A wicked Mafia Don sold his soul to the devil and thought he could escape the pact. Ammon, the demon who sealed the pact is not having it, so he has sent one of his operatives to take the soul that is his property. Vanessa Held is tasked to find the target and reap his soul and for that purpose, she will be joined by Monty, a demon who committed a great sin and was punished, becoming a Hellhound, a familiar of sorts for younger demons, to serve as a mentor and guide.

WRITER MARIO MENTASTI TALKS *OBEY ME #0*

Obey Me has a captivating premise with its classic lore of Heaven vs. Hell. What can fans look forward to in your take on these iconic forces?

While developing the story for the game I joked and called the genre of the game "Holypunk" because I more or less started from a Cyberpunk base but replaced cyborgs and corporations with demons and cults. I tried to distinguish what takes place on Earth and what happens beyond the veil of the material world, as Angels and Demons don't have physical bodies, both sides exist as astral forms that need to borrow bodies to affect reality. The dynamics involved in their presence and their effects on the material world are one of the biggest unique traits as neither side can stay among humans for long periods of time unless they don't use their powers. Their actions that they take to break the balance between them brings forth a new edge to this common conflict.

As the writer of both the video game and comic book, how has it been translating the story into this different medium?

I've studied both video game and comic book script writing so I was familiar with the techniques needed for the adaptation. I've been working on Obey Me for 3 years, so I know the lore in and out, making it easy for me to work with the characters and the story. It helps that I enjoy working in this world. I've done comic book work in the past in Argentina, but nothing of renown, just personal projects, and entries for contests.

**Ben Herrera has a long successful career drawing comics.
What makes him a perfect match for this story?
How has the collaboration process been with him?**

I admit I felt intimidated at first. But he is a great guy and his art is top-notch. His shading is amazing and breathes life into the whole urban hellscape setting. But the best thing is his excellent art for action, every kick, attack, and impact pops off the page. I winced upon seeing something I wrote being realized so viscerally – it's amazing. I think that we make a great team.

Have you looked to other comic book writers or titles for inspiration while crafting this story?

I consume comics and manga at a vertiginous pace. I read anything I can get my hands on to get better. I couldn't pinpoint a particular inspiration for the comic itself because I've learned so much from so many sources that untangling the network of references and lessons would take a while. One I'm sure about is an artist, Ramiro Gerez Murguia, who has self-published many books in Argentina. I'm a big fan of his work and the way he plots action, keeping it dynamic and simple, without making things complicated or too dense. His action set pieces are easy to follow, you can breeze through them and they are always interesting. Maybe he isn't a direct influence, but his philosophy has been important to my more recent work.

Anything else you'd like to add?

I'm thrilled to be working on Obey Me and I hope everyone who reads it enjoys it as well as the video game.

Marcos Prior and Eisner-nominated artist **David Rubín** *(The Hero, Rumble, Battling Boy: The Rise of Aurora West)* weave a politically satirical look at democracy today through the lense of hyper-violence and explosive action.

Imagine a world overrun by big business and "fake news" via the social media machine…In ***The Grand Abyss Hotel*** neoliberalism has become a state religion, while the citizens quietly and then not-so-quietly rebel, giving way to violence on the streets and sowing chaos.

A masked vigilante takes on the role of hero to battle politicians, the erosion of democracy, and social media. After the fires burn low and the dust settles, social order returns. *Or does it?*

On a brisk fall day in suburban Milwaukee, Wisconsin, 437 students, 52 teachers, and 24 additional staff from Bay Point Preparatory High School vanished without a trace. The answers will prove stranger than anyone could possibly imagine.

A new drug is sweeping through the streets of New Orleans—one made from the ashes of the dead. Wars are being fought over who will control the supply, while the demand only rises. While the crime families wage war, users begin to experience terrifying visions of the dead coming back to life—through them.

Eisner Award-nominated author **Cullen Bunn** *(The Empty Man, The Unsound)* and illustrator **Jonas Scharf** *(Mighty Morphin Power Rangers)* team up for ***Bone Parish***, a haunting blend of horror and crime that takes an unflinching look at how we connect to—and disconnect from—the world around us. Meet the Black Badges, a top-secret branch of boy scouts tasked by the government to take on covert missions that no adult ever could. Among their organization, the Black Badges are the elite—the best of the best. The missions they're tasked with are dangerous, and will only get worse as their leader's attention is split between their objective and tracking down a lost team member. A member who disappeared years ago...presumed dead.

Reuniting *New York Times* bestselling author **Matt Kindt** *(Mind MGMT)* and illustrator **Tyler Jenkins** *(Peter Panzerfaust)* following their multiple Eisner Award-nominated series *Grass Kings*, ***Black Badge*** is a haunting look at foreign policy, culture wars, and isolationism through the lens of kids who know they must fix the world that adults have broken.

(W/A/CA) Brian Fies

Early morning on Monday, October 9, 2017, wildfires burned through Northern California, resulting in 44 fatalities. In addition, 6,200 homes and 8,900 structures and were destroyed. Author Brian Fies's firsthand account of this tragic event is an honest, unflinching depiction of his personal experiences, including losing his house and every possession he and his wife had that didn't fit into the back of their car. In the days that followed, as the fires continued to burn through the area, Brian hastily pulled together *A Fire Story* and posted it online. *A Fire Story* is an honest account of the wildfires that left homes destroyed, families broken, and a community determined to rebuild. Charles "Chip" Ipswich isn't one of those coastal elites with a liberal arts degree and a job at a social media start-up who knows where all the best brunch places are...

No, Chip is one of the "forgotten men." He lives in a rural area in the middle of the country where Jesus still has a place at the dinner table and where factories send jobs to Calcutta.

Chip is also a vampire.

Stuck working the last shift at a gas station, Chip is lonely and bored...and then his dull, bleak life is turned upside down when SHE comes to town.

Tim Seeley (BRLLIANT TRASH) and Corin Powell (*Ghostbusters, X-Files Origins: Scully, Bat-Mite*) bring you a contemporary and horrifying tale of vampirism in the heart of America — one that'll make you jump right out of your boots.

AFTERSHOCK ORIGINAL GRAPHIC NOVEL

A WAR IS A DIFFICULT THING TO KILL

The Second World War is almost over, but no one seems to have told the Germans — as Royal Air Force pilot Jamie McKenzie finds out when he's assigned to deadly shipping strikes along the enemy coast.

Flying the Mosquito fighter-bomber against heavily armed targets is dangerous enough at the best of times, but after incurring the wrath of his vengeful commanding officer, Jamie is assigned the most unpopular navigator in the unit — not to mention the least reliable aircraft. Worse still, the commander's sights are firmly set on Jamie's beautiful young wife, Beth.

Writer Garth Ennis (A WALK THROUGH HELL, *Preacher, The Boys*) and artist Keith Burns (*War Stories*) reunite after the success of their series *Johnny Red*, presenting another tale of World War Two aerial combat: featuring skies black with flak and enemy fighters, nail-biting low-level action, and the dark humor of men whose lives can be snatched away at any second...OUT OF THE BLUE.

This Original Graphic Novel (Volume 1 of 2) will be presented in the same oversized European Album format (8.5" x 11.5") as the WITCH HAMMER and SHOCK hardcovers.

ELECTRIC STATE HC

(W/A) Simon Stalenhag

A teen girl and her robot embark on a cross-country mission in this illustrated science fiction story, perfect for fans of *Ready Player One* and *Black Mirror*. In late 1997, a runaway teenager and her small yellow toy robot travel west through a strange American landscape where the ruins of gigantic battle drones litter the countryside, along with the discarded trash of a high-tech consumerist society addicted to a virtual-reality system. As they approach the edge of the continent, the world outside the car window seems to unravel at an ever faster pace, as if somewhere beyond the horizon, the hollow core of civilization has finally caved in. WHEN IS HIGH MOON?

WHEN IS HIGH MOON? GN

(W) Bob Self (A) Various

Over the years, there has been a secret tradition of after-hours passion projects privately created by talented artists responsible for developing stories and visuals for animated motion pictures. In the past, you might never have had a chance to get a book like this (personal, quirky, independent, and creatively unrestricted) unless you were a studio insider. Now, one of these unofficial, off-the-radar story collections is being quietly offered, and you are invited to partake in this secret society of artistic storytellers and narrative art lovers. From the hearts, minds, and pens of dozens of women and men who work (or have worked) in the Story and Visual Development departments at major animation studios comes an anthology of short stories in graphic novel form that reflects on the question *When Is High Moon?* (STL110420) (C: 0-1-0)

(A) Robert Neubecker

Discover how Rube Goldberg followed his dreams to become an award-winning cartoonist, inventor, and even an adjective in the dictionary in this inspiring and funny biographical picture book. From a young age, Rube Goldberg had a talent for art. But his father, a German immigrant, wanted Rube to have a secure job. So, Rube went to college and became an engineer. But Rube didn't want to spend his life mapping sewer pipes. He wanted to follow his passion, so Rube got a low-level job at a newspaper, and from there, he worked his way up, creating cartoons that made people laugh and tickled the imagination. He became known for his fantastic Rube Goldberg machines: complicated contraptions with many parts that performed a simple task in an elaborate and farfetched way. (STL111054) (C: 0-1-0)

GOING INTO TOWN: A LOVE LETTER TO NEW YORK TP

(W/A/CA) Roz Chast

For native Brooklynite Roz Chast, adjusting to life in the suburbs (where people own trees!?) was surreal. But she recognized that for her kids, the reverse was true. On trips into town, they would marvel at the strange world of Manhattan: its gum-wad-dotted sidewalks, honey-combed streets, and "those West Side Story-things" (fire escapes). Their wonder inspired Going into Town, part playful guide, part New York stories, and part love letter to the city, told through Chast's laugh-out-loud, touching, and true cartoons. MORNING IN AMERICA #1

Recommended by Jim Fallone

MORNING IN AMERICA
ONI PRESS

In the 1950's at the height of the Cold War the country's fear that nuclear war was around every corner, every neighbor could be a Soviet spy manifest itself in Hollywood monster movies from *The Thing* and *Them*, to *The Invasion of the Body Snatchers*. In 1983 Regan called Russia "The Evil Empire". Soviet fighter jets intercepted a Korean Airlines 747 with sixty-one Americans onboard, including a Congressman from Georgia, and shot it out of the sky killing all 269 passengers. And in the wee hours of September 26, the Soviet missile warning system as part of a test triggered an alarm indicating that five U.S. nuclear missiles had just launched at Soviet territory. The only thing averting total nuclear war was the Watch Officer's lucky guess that it was a glitch. America was ripe with metaphorical monsters and potential destruction lurking from the simplest most innocent things like taking a plane ride or testing software. We saw horror films reflecting this like *Cujo*, *Christine*, *Videodrome*, even the innocence of our dreams could kill us with *Nightmare On Elm Street*. Exploiting this underlying tension in the country led Reagan's Presidential campaign to coin the phrase "Morning in America" as a promise of calmer, safer, times.

This is the Midwest America we find ourselves in Oni's new series and not too far off from today's crazy "Make America Great" world. And just like the country today is looking to women to lead us toward the light, Magdalene Visaggio and Claudia Aguirre team up to bring us a tale of evil dread, horrible monsters and the tough young punk rock girls that must save the day and lead us to *Morning in America*.

ORIGINAL GRIN: THE ART OF RON ENGLISH HC

ORIGINAL GRIN
RON ENGLISH

(W/A/CA) Ron English

Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term" POPaganda" to describe his signature and darkly satirical renderings of corporate branding icons. His work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized; the obese fast-food mascot featured in the movie *Supersize Me*; and Abraham Obama, which fused America's 16th and 44th Presidents. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and "agit-pop." Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication. Twenty years in the making, legendary Canadian cartoonist Seth's landmark series *Clyde Fans* shows the rituals, hopes, and delusions of a middle-class that has long ceased to exist in North America. Abe and Simon Matchcard are brothers, the second generation struggling to save their archaic family business. Much like the myth of an ever-growing economy, their family unit is a fraud-the patriarch has abandoned the business to mismatched sons, one who strives to keep the business afloat and the other who retreats into the arms of the remaining parent. Presented in a deluxe slipcase edition, *Clyde Fans* is an epic time capsule of a storyline that begs rereading. (STL111130) (C: 0-1-2)

In this emotionally charged memoir, Sjöblom's unaddressed feelings about her adoption come to a head when she is pregnant with her first child. Palookaville 23 marks the culmination of twenty years of serialization: here, *Clyde Fans* comes to a conclusion. In this final chapter, we return to Simon Matchcard and the year 1957, exactly where we left off at the end of the first *Clyde Fans* volume. After his disastrous attempt at sales in the city of Dominion, we witness the out of body experience and ecstatic "vision" that sets Simon on his path of lonely isolation in the years to come. But of course that's not all; the next installment in Seth's memoir, *Nothing Lasts*, follows him from late childhood to his high school years, from innocent crushes to adolescent brooding, all told with what has become Seth's signature anecdotal approach to autobiography. Inés Estrada's debut graphic novel presents a future where virtual reality affects our diets, sex lives, and nightly dreams. Elizabeth, an erotic dancer, and Carlos, an oil rig worker, attempt to keep their romance alive while dealing with cyber stalkers, malfunctioning brain implants, grocery shopping and spotty internet service. When they realize that their bodies are full of artificial organs, they begin to question what being human actually means. Then Elizabeth gets pregnant. This is a striking debut that heralds a major new voice in graphic novels and science fiction.

After his first two critically heralded graphic novels, *Celebrated Summer* and *The End of the Fucking World* (recently adapted into a TV show on the UK's Channel 4 and streaming stateside on Netflix), Forsman once again channels the teenage ethos in a style that evokes classic comic strips while telling a powerful story about the intense tug of war between trauma and control.

THE BREAKAWAYS

(W/A/CA) Cathy G Johnson

A powerful middle-grade graphic novel about a soccer team full of misfits and the unlikely friendships forged on and off the field. Faith, an introverted fifth grader with a vivid imagination, starts middle school worrying about how she will fit in. To her surprise, Amanda, a popular eighth grader, convinces her to join the school soccer team, the Bloodhounds. Having never played soccer in her life, Faith ends up on the C team, a ragtag group with a tendency for drama over teamwork. Despite their losing streak, Faith and her fellow teammates form strong bonds both on and off the soccer field, which challenge their notions of loyalty, identity, friendship, and unity. KISS NUMBER 8

(W) Colleen Af Venable
(A) Ellen T Crenshaw

A layered, funny, sharp-edged story of teen sexuality and family secrets. Mads is pretty happy with her life. She goes to church with her family, and minor league baseball games with her dad. She goofs off with her best friend Cat, and has thus far managed to avoid getting kissed by Adam, the boy next door. It's everything she hoped high school would be... until all of a sudden, it's not. Her dad is hiding something so big it could tear her family apart. And that's just the beginning of her problems: Mads is starting to figure out that she doesn't want to kiss Adam... because the only person she wants to kiss is Cat. Just like that, Mads's tidy little life has gotten epically messy and epically heartbreaking. And when your heart is broken, it takes more than an awkward, uncomfortable, tooth-clashing, friendship-ending kiss to put things right again. Available in softcover and hardcover editions. A Call to Remember Why We Love Comics

The Overstreet
49th Edition
Comic Book
Price Guide
2018-2019
Robert M. Overstreet

As you read this month's installment of CBM, the holidays are just behind us, but as I write this text it's the day before Thanksgiving, and I'm thinking of some of the many things for which I'm thankful.

Among them, of course, are the Overstreet Advisors.

Each year, dealers, collectors and historians take time out of their busy lives and dedicate themselves to providing the information that has helped *The Overstreet Comic Book Price Guide* develop over the course of almost five decades.

Whether they're suggesting that prices should go up or prices should go down or that specific issues should be singled out, their diverse perspectives inform us and cause us to think. The *Guide* would simply not be all that it is without their efforts.

In every edition, the market reports are packed with nuggets of information – some of it even contradictory in their views of the marketplace – that will provoke you to take a look at what's going on in our hobby.

One of my favorites in *CBPG* #48 came from Dr. Steven Kahn, a retired successful dental surgeon, whose second career saw him open a comic shop. What I liked so much about it was its call to really love what we're doing.

"The passion and excitement of collecting helped me to create a second act in my life that is exhilarating and satisfying beyond my dreams. After practicing oral surgery for over 40 years, I let it go and opened my store, The Inner Child Comics and Collectibles about five years ago, in Kenosha, Wisconsin," Dr. Kahn wrote.

"Instead of going to work with anxiety and stress of how things might go terribly wrong and the heavy responsibility of the job itself, and acting as a surgeon and an anesthesiologist at the same time, I now go to work every day filled with excitement and anticipation. I never know who may drop in the store or call me with something that I may have never owned, and possibly never even seen. Although significant finds may be few and far between, I, nonetheless feel like a kid on Christmas morning whenever the phone rings or someone pops in the store. It is, and continues to be, intoxicating," he said.

His market report goes on to extol what we do, and it calls everyone who reads it to do the same. I really urge you to read the whole thing in *The Overstreet Comic Book Price Guide* #48.

In the meantime, a very Happy New Year to you!

Bob

Overstreet MVC Most Valuable Comics

More Fun Comics #73

Cover Price: 10¢

1970 Overstreet Price: $35

2018 Overstreet Price: $120,000

Known for: The first appearance of both Aquaman and the Green Arrow! This book was jam-packed with superhero stories, and this particular issue introduced readers to the Green Arrow and his sidekick Speedy in "Case of the Namesake Murders" and to Aquaman in "The Submarine Strikes." The book also featured stories focused on Doctor Fate (in which he battles against Mr. Who), The Spectre, Clip Carson, Johnny Quick, and the Radio Squad.

Did You Know?: *More Fun Comics* was an anthology comic series published between 1936 and 1947, and introduced a number of Golden Age characters, such as Doctor Occult and Superboy, to the DC universe. Many of these heroic stories would be moved over to *Adventure Comics* as, in the series' later years, it was retooled to be more of a comedy book. Its final issue was #127 (November-December 1947).

More Fun Comics is also notable for being the first book published by National Allied Publications - the company that we now know today as DC Comics. It was also the first comic book that consisted entirely of original material, rather than simply reprinting newspaper comic strips.

Not to toot our own horn, but did you see that a copy of the first edition of *The Overstreet Comic Book Price Guide* sold for $9,000 at Heritage Auctions on Thursday, November 15, 2018?

The CGC 9.2 example of the Guide is one of only four certified by CGC to date, the next highest being an 8.0 copy. The $9,000 price is a nice improvement on the $5 cover price.

WALT KELLY'S THE ADVENTURES OF PETER WHEAT: THE COMPLETE SEREIS VOLUME 2

(W) Walt Kelly, Thomas Andrae (A/CA) Walt Kelly

Walt Kelly's *Peter Wheat* comics are renowned for their humor, artistic flair and appeal to both children and adults. Between 1948 and 1951, Kelly drew thirty-five issues of *The Adventures of Peter Wheat*, a sixteen page comic book given away to bakeries to promote *Peter Wheat* bread. The stories were fairy tales starring Peter Wheat, an elf-sized boy who lived in a hollow tree on the edge of a wheat field where he and the Little Folk battle Dragonel, Queen of the Hornets, and later The Wizard. Continuing in their reprint of the rare and never before collected *Peter Wheat*, Hermes Press' *Walt Kelly's Peter Wheat the Complete Series: Volume Two* picks up where Volume One left off, starting with issue #15 and continuing to issue #25! THE GOON #1

Recommended by Leigh Tyberg

I don't know if you noticed the first hundred times you read the Goon series, but it is damned delightful. You probably knew that already, though, because it's been a staple on comic shop shelves for a very long time. The Goon has always played in that creepy/funny sandbox that appeals to readers' darker sense of humor, funning on the dead and the dreary, giving us snicker-worthy takes on old horror tropes. It's a little spooky (or spoopy to us kids), a little nutty, a lot funny and all heart.

This new #1 is no exception. Centering around Goon, Franky and Roscoe's return to town after some overseas adventures, they find that things aren't quite as hunky-dory as they figured they'd be.

In fact, it looks like happenings in town have gotten quite a bit worse.

Now it's up to our face-breaking hero and his friends to clean things up once more. First step? Find new digs. Second step? Punch zombies, ghouls, vampires, mummies, etc in their ugly mugs. Third step? Profit!

If you enjoyed the original Goon (if you didn't, what's wrong? Why do you hate fun? How can I help?), you won't want to miss the new series by original creator Eric Powell and Albatross Funnybooks!

A NOTE FROM LION FORGE

Lion Forge is proud to offer *Stiletto*, the first entry in our new line of comics designed to bring a more fulfilling experience to serialized single issue reading. We have carefully selected a group of amazing stories from some of the best and most exciting talent around. Each story contains those special hooks that make reading serialized issues so addicting. If you're the type of reader who "waits for the trade," these single issues are designed for you.

A NOTE FROM THE CREATOR

"I'm thrilled we're able to present *Stiletto* in this longer format, which has given me room to fully realize my original vision by expanding the story with new content. Creatively, it's been a fascinating balance—being able to delve further into the darkest aspects of the story's themes, while maintaining a profound love for these tragic characters drowning in moral ambiguity."

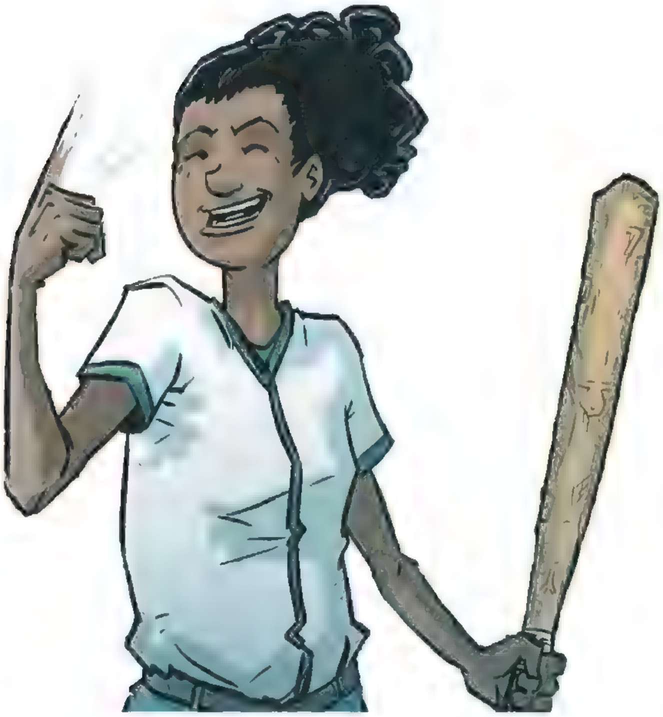
After stepping on a crack and breaking her mother's back, ever-superstitious Alex Mills must journey to Haphaven, the world where all of Earth's superstitions draw their power. On the search for the lucky rabbit's foot to save her mom, Alex learns that breaking with superstition might be the key to saving her mom, even if it means she could get jinxed along the way.

CHARACTERS TO WATCH

ALEX MILLS

Alex Mills just might be the most superstitious twelve-year-old there ever was. She follows her 'stitions to the letter: picking up pennies, collecting rabbit's feet, hanging up horseshoes. . . you name it. She's terrified to turn thirteen because, of course, thirteen is the unluckiest number. Alex must finally confront all the fears that have taken hold of her life if she'll have any chance to save her mom.



THE JINX

The Jinx is the most formidable creature in all of Haphaven. The physical embodiment of all curses, the Jinx is misfortune given physical form. It must live in exile in Slugwood Forest, away from the other citizens of Haphaven. Doomed to live a miserable life, the Jinx must suffer itchy, wart-covered skin.

MARGARET ATWOOD
THE HANDMAID'S TALE

THE HANDMAID'S TALE GN

(W) Margaret Atwood (A) Renee Nault

An instant classic when it was published in 1985, Atwood's genre-bending, dystopian story comes to life in this new, beautifully illustrated graphic novel. The story is iconic: In the Republic of Gilead, a Handmaid named Offred lives in the home of the Commander, to the purpose that she become pregnant with his child. Stripped of her most basic freedoms, (work, property, her own name), Offred remembers a different time, not so long ago, when she was valuable for more than her viable ovaries, when she was mother to a daughter she could keep, and when she and her husband lived and loved as equals. Darkly prescient, scathingly sarcastic, and eminently frightening, *The Handmaid's Tale* has only gained relevance since it was originally published, and remains one of the most powerful, widely read stories of our times. THE ROLLING STONES IN COMICS HC

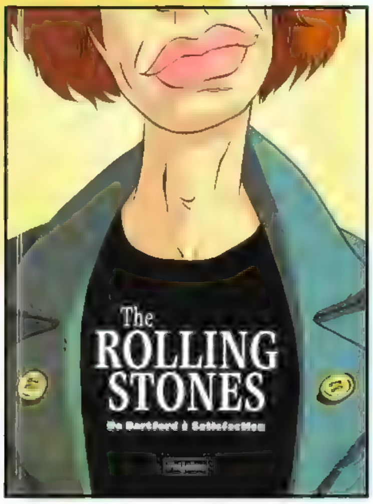
(W) Ceka (A/CA) Various



When the Rolling Stones hit the scene in the 60's, it was to play Rhythm & Blues, nothing more. They are far from imagining that they are not just going to change music but also become the mouthpiece of a changing world. Sticking their tongue out at the establishment with their brilliant music and hard-hitting lyrics, they achieve planetary-wide success. With Mick Jagger and Keith Richards in the lead, these rebels have become, over fifty years, not just music, but a whole attitude! Through twenty-one stories in comics accompanied by biographical texts and a rich iconography, this book makes you relive, in a totally new way, the incredible epic of one of the biggest rock bands ever. French comic book artist Simon Muchat drifts through his uneventful day-to-day existence, which has become devoid of color and flavor, and severely lacking in inspiration. He has no plans, no desires, no projects, and is slowly stagnating in his job as a school art teacher. He seems indifferent to his girlfriend's reproaches as she tries to shake him from his torpor. Simon is invited to spend a few days in Portugal for a comic book festival. The invitation strikes a chord with him, as his family is originally from there, and he hasn't been back since his childhood. STRANGERS IN PARADISE XXV VOLUME 2: HIDE AND SEEK TP

Recommended by Steven Leaf

TERRY MOORE
STRANGERS IN PARADISE XXV
Hide and Seek

In January of 2018 a few friends returned when Terry Moore celebrated the 25th anniversary of *Strangers in Paradise* with the return of Francine and Katchoo and their kids in *Strangers in Paradise XXV*.

In the first volume, Francine and Katchoo have made peace with their past and are enjoying their own bit of paradise. With their peaceful life threatened, you know Katchoo isn't going to put up with that crap, and with a little sisterly help from Tambi the hunt is on for their prey. As the series has progressed the crossovers from Terry's other books have brought us characters from *Rachel Rising*, *Echo*, and *Motor Girl*.

In this concluding volume, you have an unstoppable Katchoo in her hunt for Stephanie, a rogue Parker Girl who threatens Katchoo's family. Katchoo's mission becomes more complicated when she discovers Stephanie has a bigger goal in mind, one that has attracted the attention of the most powerful nations in the world. As the stakes rise, Francine and the kids are forced to defend themselves in a deadly game of hide and seek. Can Katchoo find Stephanie in time to save her family?

A Terry Moore book is always a welcome addition to my reading (and collecting) list and when it's Helen Francine Peters and Katina Marie ("Katchoo") Choovanski, coming back it's like finding an unpublished Spenser novel by Robert B Parker, you gotta read it now because nothing's better than the original creator working on their greatest creations.

Sisters Anna and Kat return for the second book of Megan Rose Gedris's paranormal circus murder mystery, *Spectacle*!

A murder is tough thing to solve, even without temperamental performers, supernatural occurrences, and the ghost of the victim giving commentary. But as Kat's only link to the living world, it's up to scientifically-minded Anna to figure out who killed her sister—before any more murders rock the small traveling community. Yet as she gets closer to finding a lead, even more unbelievable events obscure the truth: roustabouts start sprouting horns, performers grow forked tongues, and a demon visits Anna's sleep at night. Does Kat know more than she's letting on? And can Anna keep the circus—let alone herself—safe?

"Humorous and heartfelt, creepy and captivating; readers will eagerly hope for another volume."

A new graphic novel from the Eisner Award-nominated creator of *Mermin* that deftly navigates loss, vengeance, and acceptance!

Truff is the ghost of a young boar, fueled by fury towards the hunter who shot her down. She has a lot to learn about her new afterlife, and thankfully the forest spirits Claude and Stanley are there to guide her!

However, they soon find that her parents, along with their fellow animal villagers, have been kidnapped by the malicious mountain demon Mava! Truff wants to help, but... the hunter is finally within her grasp, and if she lets him go, she may never get her revenge!

Is vengeance all that being a ghost is good for?
Or is there something stronger keeping this little pig tethered to the living world?

> **"*Ghost Hog* is a powerful, high-adventure exploration of being haunted by the defining choices and mistakes we've made—and about forgiveness found in the gray areas of family, justice, and fairness. Francisco de Goya is considered one of the most important Spanish painters of the late eighteenth and early nineteenth centuries, last of the Greats and first of the modernists. But his sumptuous images stemmed from a mind in torment, especially later in his life. *Goya: The Terrible Sublime* focuses on his final years, as he struggles with assorted physical ailments that threaten to take his mind, as well. Recovering from a serious illness in Cadiz, Spain, which has left him deaf, Goya suffers from terrible headaches, high fevers, and hallucinations, beset by visions of death that will become all too real with the advent of the Spanish War of Independence. THE Strangest Movie NEVER MADE!

GIRAFFES ON HORSEBACK SALAD GN

(W) Josh Frank, Tim Heidecker (A) Manuela Pertega

Surrealist icon Salvador Dali and iconoclast comedians The Marx Brothers planned a never-made film that merged their sensibilities in a sublime mashup of absurdity, surrealism, slapstick, and wit. But the original screenplay was lost... until now. Rejected by MGM studios, the script was thought lost forever. But author Josh Frank found it, and with comedian and writer Tim Heidecker and Spanish artist and comics creator Manuela Pertega, he's recreated the film that Dali and the Marx Brothers would have made as a graphic novel that presents the story in all its full-color, fully cinematic, fully surreal glory. A remarkable plural marriage of art, absurdity, biography, and comedy, *Giraffes on Horseback Salad* is a cinematic, comedic, and literary experience like no other. (STL110328) (C: 0-1-0)

DAWNBREAKER

When the dawn breaks, a hero rises. His power is beyond imagining. Clark Kent has always been faster, stronger than everyone around him. But he wasn't raised to show off, and drawing attention to himself could be dangerous. Plus, it's not like he's earned his powers... yet. But power comes with a price. Lately it's difficult to hold back and keep his heroics in the shadows. When Clark follows the sound of a girl crying, he comes across Gloria Alvarez and discovers a dark secret lurking in Smallville. Turns out, Clark's not the only one hiding something. Teaming up with his best friend, Lana Lang, he throws himself into the pursuit of the truth. What evil lies below the surface of his small town? And what will it cost Clark to learn about his past as he steps into the light to become the future Man of Steel? Because before he can save the world, he must save Smallville. (STL110322)

A FIRE STORY

Recommended by Steve Leaf

You can't get much more contemporary than a graphic novel about the wildfires in Northern California, and in this graphic novel from Abrams Comicarts writer/artist Brian Fies brings a firsthand account of the Northern California wildfires of 2017.

Originally produced as a webcomic to help deal with his personal experiences, including losing his house and every possession he and his wife had that didn't fit into the back of their car. In the days that followed, as the fires continued to burn through the area, Brian hastily pulled together *A Fire Story* and posted it online. It immediately went viral.

In this graphic novel, Brian has expanded his original webcomic to include environmental insight and the stories of his neighbors and others in his community. *A Fire Story* is an honest account of the wildfires that left homes destroyed, families broken, and a community determined to rebuild.

Given the reoccurrence of wildfires this year and having a son living and working in northern California and getting calls as he's driving from work during an evacuation and telling me about the smoke and fires, this book really hit close to home.

With the continuing threat of wildfires in California, regardless of how they began, due to man or nature, Brian's skilled storytelling puts human faces on this life changing environment.

LOMAX: COLLECTORS OF FOLK SONGS GN

(W/A/CA) Frantz Duchazeau

In 1933, folklorists John (1867-1948) and Alan (1915-2002) Lomax roamed the southern United States in search of songs. Equipped with a portable tape recorder, the father-and-son team visited churches, plantations, and penitentiaries to seek out and record the raw, authentic sound of American folk music. From ballads to work songs, ragtime to blues, the songs collected by the Lomax family on this and subsequent expeditions formed an archive that preserved the heritage of American folk music. Frantz Duchazeau's graphic novel is at once a fascinating portrait of 1930s America and a captivating story about a father and son who, despite many differences in outlook and approach, were united by a commitment to cultural preservation and a passion for music. But now the towering hero has come face-to-face with a danger as big as him—mega sharks! Can Paul use his massive size and his enormous smarts to save the day? In this *Far Out Folktale*, the legend of America's famous lumberjack gets twisted about to create an exciting graphic novel adventure for kids. (STL110167) (C: 0-1-0)

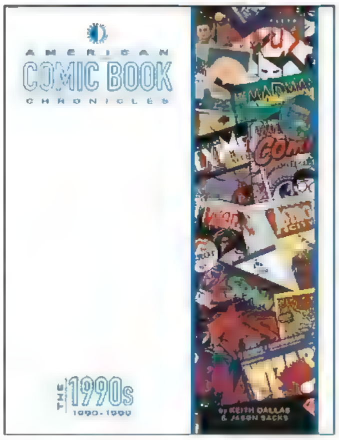
O/A AMERICAN COMIC BOOK CHRONICLES: THE 1990S HC



The *American Comic Book Chronicles* continues its ambitious series! Jason Sacks and Keith Dallas cover all the pivotal moments and behind-the-scenes details of the Bill Clinton years! The 1990s was the decade when Marvel Comics sold 8.1 million copies of an issue of the *X-Men*, saw its superstar creators form their own company, cloned Spider-Man, and went bankrupt. It was when Superman died, Batman had his back broken, and the runaway success of Neil Gaiman's *Sandman* led to DC Comics' Vertigo line of adult comic books. It was the decade of gimmicky covers, skimpy costumes, and mega-crossovers. But most of all, the 1990s was the decade when companies like Image, Valiant, and Malibu published million-selling comic books before the industry experienced a shocking and rapid collapse! O/A COMIC BOOK IMPLOSION SC

In 1978, DC Comics implemented a bold initiative to combat plummeting sales: Give readers more story pages with a higher cover price, to better compete on newsstands. This "DC Explosion" brought with it many creative new titles, but just weeks after its launch, they pulled the plug, cancelling numerous titles and leaving stacks of completed comic book stories unpublished. It quickly became known as "The DC Implosion", and TwoMorrows Publishing delves into one of the most notorious events in comics with an exhaustive oral history from the creators involved (Jenette Kahn, Paul Levitz, Len Wein, Mike Gold, and others), plus detailed analysis of how it changed the landscape of comics forever! MARVEL COMICS IN THE 1960S SC

(W) Pierre A. Comtois (A) Jack Kirby, Steve Ditko

After being relegated to the realm of children's literature for the first 25 years of its history, the comic book industry experienced an unexpected flowering in the early 1960s. A celebration of that emergence, *Marvel Comics in the 1960s: An Issue-by-Issue Field Guide to a Pop Culture Phenomenon* takes the reader from the legendary company's first fumbling beginnings as helmed by savvy editor/writer Stan Lee (aided by such artists as Jack Kirby and Steve Ditko), to the full maturity of its wild, colorful, offbeat grandiosity. TRUTH IS FRAGMENTARY: TRAVELOGUES & DIARIES GN

(W/A/CA) Gabrielle Bell

For an impoverished cartoonist, I do an awful lot of international traveling. Raw, bare-boned, scathingly funny dispatches from the renowned comic diarist Gabrielle Bell, with biting cultural commentary mixed with her signature introspective, self-deprecating humor, and surreal digressions — from car-driving bears, through Zombie Apocalypses, to cute babies, and... more bears! — as she visits France, Sweden, Switzerland, Norway, Colombia, back to Brooklyn, and finally landing in upstate New York. THE VOYEURS GN

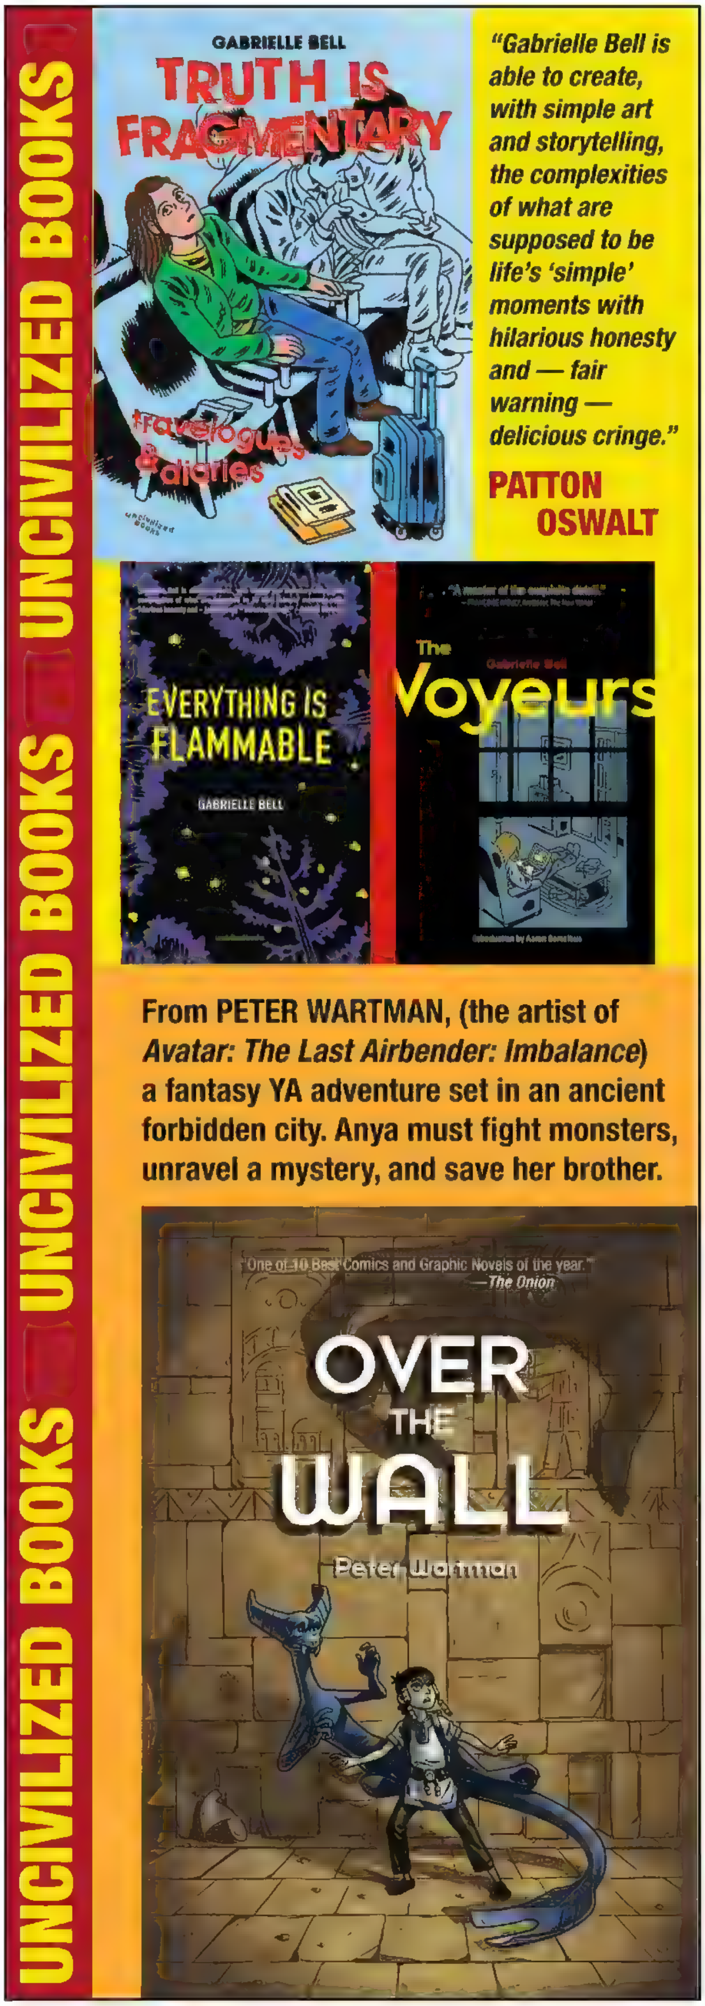
(W/A/CA) Gabrielle Bell

The Voyeurs is a real-time memoir of a turbulent five years in the life of renowned cartoonist, diarist, and filmmaker Gabrielle Bell. It collects episodes from her award-winning series *Lucky*, in which she travels to Tokyo, Paris, the South of France, and all over the United States, but remains anchored by her beloved Brooklyn, where sidekick Tony provides ongoing insight, offbeat humor, and enduring friendship. (STK469184)

SC, 6x9, 160pgs, FC...................... $24.95



"Gabrielle Bell is able to create, with simple art and storytelling, the complexities of what are supposed to be life's 'simple' moments with hilarious honesty and — fair warning — delicious cringe."

THE ARTISTRY OF NEIL GAIMAN: FINDING LIGHT IN SHADOWS SC

(W) Joseph Michael Sommers, Kyle Eveleth

Despite Neil Gaiman's incredible contributions to comics, his work remains underrepresented in sustained fashion in comics studies. The thirteen essays and two interviews with Gaiman and his frequent collaborator, artist P. Craig Russell, examine the work of Gaiman and his many illustrators. The essays discuss Gaiman's oeuvre regarding the qualities that make his work unique in his eschewing of typical categories, his proclamations to "make good art," and his own constant efforts to do so however the genres and audiences may slip into one another. *The Artistry of Neil Gaiman* forms a complicated portrait of a man who has always seemed fully assembled virtually from the start of his career, but only came to feel comfortable in his own voice far later in life. THE CANADIAN ALTERNATIVE: CARTOONISTS, COMICS, AND GRAPHIC NOVELS HC

(CA) Bernie Mireault

This overview of the history of Canadian comics explores acclaimed as well as unfamiliar artists. (A/CA) Rutu Modan

The first in-depth study of acclaimed work by a pioneer of Israeli comics. *The Comics of Rutu Modan: War, Love, and Secrets* conducts a close reading of her work and examines her role in creating a comics arts scene in Israel. Drawing upon archival research, Kevin Haworth traces the history of Israeli comics from its beginning as 1930s cheap children's stories, through the counterculture movement of the 1970s, to the burst of creativity that began in the 1990s and continues full force today. STAFF PICK

CLYDE FANS GN

Recommended by Luke Martin

Clyde Fans is the 20 year long creative pursuit of singularly named Canadian cartoonist and illustrator, Seth, spurred on after peering into the storefront of a long defunct business specializing in oscillating fans. If you said you were skeptical of that premise for this tome of a book, I would understand the hesitation. A story about electric fan salesmen isn't exactly a standard narrative hook, but the overarching themes of failure and family permeate every interaction of the characters and their environment.

The plot follows the Matchcard brothers, Abe & Simon, mostly through their middle aged and elderly lives, journeying younger only to contextualize their actions as older men. Much of the story is told directly by the two, either through literary aside by Abe (who always speaks his thoughts out loud to the reader), or through free floating text coming from Simon's head. It's a wonderfully simple reflection of their own individual traits and very quickly highlights how completely opposite they are as people. Both men are deeply flawed, and both men approach life in opposing ways, but neither ever seems to achieve a sense of lasting happiness. The writing is very strong in that regard. There's never any explosive conflict or strong antagonist, just an oppressively maudlin atmosphere that contributes to a cold sense of isolation for each brother, regardless of whether they're alone or not. In fact, the only time that tone lets up in my opinion is the last sequence we see of them together. A sequence where they're arguing, but still communicating honestly for the first and last time in the comic.

When I say that the tone feels cold, I mean visually as well. The entire story has a black, white, and blue limited color palette that really contributes to the sad, aged feeling of it all. I don't know that it would ever have cultivated the same melancholia without that element. It matches the art especially and the designs overall really evoke the era of the 50-60s that the story spends the most time in.

The book is one part *Death of a Salesman*, one part Collyer brothers, and all parts quiet melancholy. I don't know that it's for everyone, but if you find that you like a slow burn with a lot to think about or need a good comic to discuss at a book club, I would wholeheartedly recommend it.

MORE ABOUT MANGA!

GASHUU ART BOOKS

Known as "gashuu" in Japan, art books are collections of images from beloved or well-respected artists and/or properties.

Usually oversized to accentuate the visuals, *gashuu* are generally comprised of character art, detailing the design work of an artist or team.

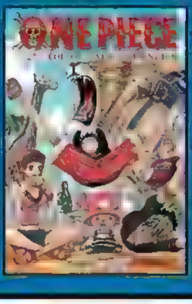
FULLMETAL ALCHEMIST

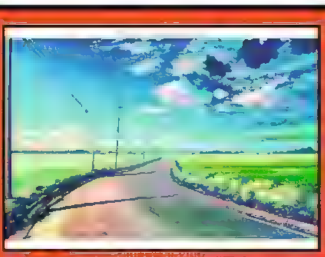
UZUMAKI
NARUTO

Presentation is key to these books. Outside of the large trim size and color art, it is not uncommon to see hardcovers or special paper stocks within these tomes. Gatefold pull-out posters are also a regular feature and are coveted by fans.

For the full Mangapedia article, see PREVIEWSworld.com/manga

While the art can often speak for itself, fans do appreciate opportunities to see what artists in Japan may have been thinking when designing their favorite works via included interviews.





Gashuu are usually as big as a magazine or a coffee-table book and cost significantly more than standard manga volumes. But even with the higher price points fans have repeatedly shown that there is continuing demand for gashuu art books.

But when the stakeout teams are shuffled around, he ends up being paired up with Motoharu Kaburagi, an ill-mannered photographer who's nothing but trouble. 86-EIGHTY SIX, Vol. 1

By Asato Asato

The San Magnolia Republic has long been under attack by unmanned weapons from the neighboring Empire. Against this onslaught, the Republic has also deployed similar weapons, narrowly avoiding great loss of life and impending disaster-or at least that's how it seemed.

The truth is that it has never been possible to have no casualties. Young men and women drawn from the Republic's supposedly non-existent 86th district are organized into the "86 unit" and then ordered to pilot the "unmanned weapons" before heading to battle.

What relevance did they have for his mother? Armed with the contents of the lacquered box he travels to Venice to track down the places and events displayed in the images and to discover the identity of the young couple in the old photograph. TOY TALK: SHAWN KNAPP

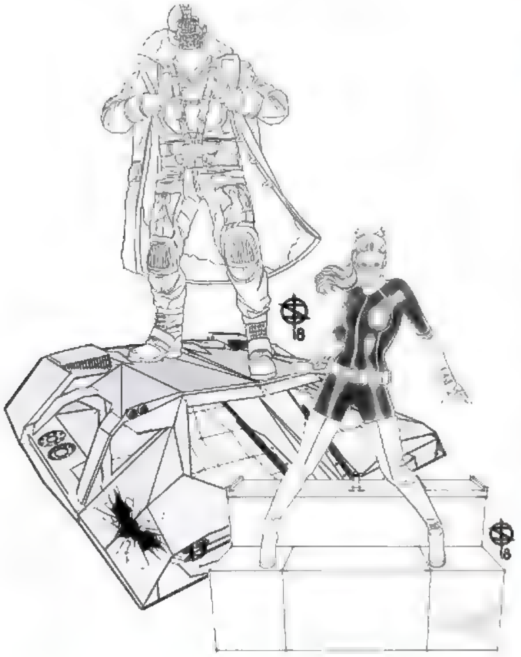
Toys, Statues and other collectibles don't just magically appear on store shelves. A lot of work goes into the concept, design, sculpting and final production of these items, and many of the people who work behind-the-scenes with companies like Diamond Select, DC Collectibles and Gentle Giant, among others, remain mostly unknown to their appreciative audience: the final consumer.

With *Toy Talk*, we hope to introduce you to the artisans behind some of your favorite collectibles, and to let them enjoy their well-deserved moment in the spotlight!



PREVIEWS: How did you get involved in the toy industry?

Shawn Knapp: I have a degree in Industrial Design and started my career over 20 years ago as a sculptor for the now defunct toy company ReSaurus. When they closed up shop, a friend and I started a small studio called Industrial Zoo where we actually did some early Marvel props for DST among other projects and clients. After that I worked for a Canadian company before they closed their doors. From there it was off to NYC to work for DC until leaving in 2017.

PREVIEWS: What was your design process for the Dark Knight Catwoman PVC figure?

Shawn Knapp: Having worked on product for the movies original release, I revisited those original designs so I tried not to repeat myself. I also went back to old sketches, I had drawn while on set during filming looking for new inspiration. A lot of time has passed since the movie's initial release so there is a fair amount of other interpretations out there. What I wanted to achieve was a fresh take on the character that hadn't been done yet, but feel as if it could have happened in a cut scene or off camera, yet stay true to Anne Hathaway as Catwoman.

PREVIEWS: What were the particular design challenges for the Dark Knight Catwoman PVC figure?

Shawn Knapp: The biggest challenge was finding an environment to put her in that I hadn't done before. Although she's a major player in the movie, she's not in a lot of situations that are practical for a vignette for a statue. I went with design elements from the roof top scene where she and Batman meet and eventually escape in the Batwing. This gave me the opportunity to raise the figure vertically and put her in context of a scene from the movie hopefully giving the statue an interesting silhouette and allow her to be seen in 360 degrees.

PREVIEWS: You previously designed another Catwoman PVC figure for DST. How do you approach the same character with two completely different designs?

Shawn Knapp: I think about the character in general, their history, era that needs to be represented, physicality of the character during that time period. All this informs the pose and attitude. It's a bit like casting for film or TV. You wouldn't cast a 5'3", 150 pound actor to play a character like Thor. I think the same is true for poses, each character has their own unique physical traits and how they move and distilled down even more the time period they are from. The easiest example is the '66 Batman compared to the Nolan version, they are the same character but completely different in almost every sense past that.

PREVIEWS: You've designed two other Dark Knight PVC figures. What are you trying to capture with your designs?

Shawn Knapp: In the case of the Batman piece, obviously this isn't an actual scene in the movie, but inspired by events. It was a piece to be able to give a nod to Heath Ledger's Joker by having Batman's pose a thoughtful one as he examines the playing card.

Bane was more straight forward, there are some great designs of the character out there with huge poses and action, personally I like to try to find other moments that evoke another dimension of the character. In this case I wanted that moment in the movie right before the big fight scene where he has a confidence and almost regal attitude as he surveys the chaos he has created right before he squares off with Batman.

PREVIEWS: Are your designs based in any particular scenes/moments in the movies?

Shawn Knapp: I try to stay as true to the movie as possible. Actors work hard at creating a character and you want to be mindful and respectful to that, but with that said sometimes you need to take a few liberties and land in an area that is in the spirit of the performance. You don't want to create something that has been done over and over again, yet you don't want a pose for a character that misrepresents the core of that performance. If a character is a big bruiser you don't want them appearing overly animated or in contrast a nimble character just standing around doesn't take advantage of what makes that character interesting visually.

PREVIEWS: Do you have a favorite product you've worked on for DST?

Shawn Knapp: Having been able to work on so many designs for Diamond Select Toys it would be like picking your favorite child. I'm very fortunate to have my "doodles" translated into 3D by some of the absolute best artists in the industry. It's a testament to their talent and DST's commitment to excellence.

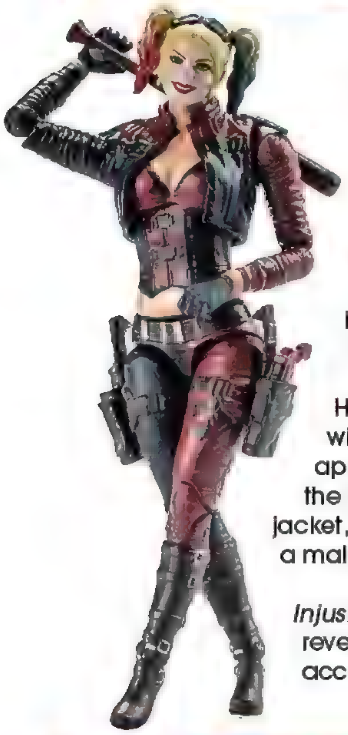
HARLEY QUINN IS ON A MISSION FROM HIYA TOYS



It's been more than a year since *Injustice 2* rocked the DC Universe, but its popularity still hasn't worn off DC fans and gamers. *Injustice 2* follows Batman and his allies as they try to rebuild the planet after taking down Superman, ending his reign of terror. The 2017 release won over video game fanatics with its jaw-dropping visuals and won over comic book fans with its narrative and use of iconic DC Comics characters.

Hiya Toys is honoring one of those iconic characters, Harley Quinn, with a ***PREVIEWS*** **Exclusive** 1/18-scale action figure based on her appearance in the game. The figure is seemingly pulled straight from the game, featuring Harley in her multi-colored pigtails, her leather jacket, work boots, handgun holsters and more. While escaping from the Empire, the small band of rebels aboard the *Millennium Falcon* seek asylum in Cloud City above the gas mines of Bespin. The city is being managed by Lando, and old friend of Han's, so they should be able to relax a bit before heading back into the fray. TALES OF THE LOST CITADEL SC

TALES OF THE
LOST CITADEL
EDITED BY C.A. SULEIMAN

(W) Kealan Patrick Burke & Various

Tales of the Lost Citadel is a shared-world anthology of fifteen horror-fantasy stories. The city is called Redoubt, and as far as anyone knows, it is the last. Seven decades ago, there were cities upon cities; kingdoms and nations, the remains of ancient empire. Cultures at war, cultures at trade. Humans, dwarves, elves, and others. Magic and monsters, rare but real. Regions of desolation, but also regions of plenty. So it was for millennia, until the world ended. Most call it the Fall, but whatever term a given people choose to use, it marked the point where everything changed. Nations crumbled. Races died. Magic sputtered. Nature sickened. The Dead woke. THE LOST CITADEL RPG CORE SOURCEBOOK HC

Some say the doors to the Underworld flew from their hinges. Others believe that the god of the dead went mad. Whatever the cause, this is a setting where the dead have become the Dead, and where all that's left of civilization has gathered behind the walls of the world's last bastion for the living, the city of Redoubt. Whether human, elf, dwarf, or monstrous ghûl, all must survive the horror of this world overrun by death. *The Lost Citadel* is a transmedia world existing simultaneously as gaming, art, fiction, music, and more. *Lost Citadel Roleplaying* is Green Ronin's full-faith effort to bring the world of *The Lost Citadel* into the newest edition of the world's most popular roleplaying game. Welcome to a dark fantasy gaming experience unlike any other. (STL111388) (C: 0-1-2)
